

# CLASS 1

St John's Rishworth

Curriculum Newsletter

Term 2 2018

This information is given to help parents and carers to support the work their children are doing in school. If you are planning a visit to the library or a bookshop there are ideas on what you could choose. If you are arranging a visit to an attraction, you might get some ideas. Alternatively if you are working together on the computer, you can search for useful web sites.

## SCIENCE: Materials

In our science this term we will be looking at materials. We will be identifying common materials, naming them and comparing how they are used. We will talk about the properties of different materials and how materials are chosen to make a variety of objects.

## PHYSICAL EDUCATION: Gymnastics/Dance

In Gymnastics we will be having a specialist teacher visiting us to teach us more about controlling our movements in gymnastics. In dance we are exploring space and performing different dance moves to space music.

## COMPUTING: Programming Instructions

We will be using Bee-Bots and will program them to move in different directions. We will also be using a 2Go package on the computer to develop our programming skills further.

## P.S.E: Going For Goals

Thinking about how we learn best and discussing how to set an achievable goal. Working out what are our short term goals and our long term goals and how to work towards a goal.

## HISTORY: Great Explorers

We are finding out about the lives of Christopher Columbus and Neil Armstrong. We will compare the ways in which they explored the world.

## MUSIC : Everyone

We will be listening and responding to different styles of music and learning to sing along. We will learn some nursery rhymes that are new to us,

## GEOGRAPHY: Maps

We will learn about what a map is by looking at maps of the world and how they are used by explorers. We will draw up a range of maps including treasure maps and add features onto maps of the world.

## ART: Sculpture

What do we mean by sculpture? We will look at work by famous sculptors. We will talk about 3D shapes and fold and twist paper into 3D shapes. We will also use modelling material to make our own sculptures.

## RELIGIOUS EDUCATION: Islam. The teachings of Jesus.

We will learn how Muslims express their faith and what they believe in. We will also be learning about the Good News that Jesus taught to the world.

## DESIGN TECHNOLOGY: Vehicles- making space buggies.

First we will experiment with wheels and axles and find out how we can make things move. We will then make our own space vehicles.
